

COLORADO MOUNTAIN EXPRESS

Colorado Mountain Express, the preferred provider of full-service ground transportation in Summit County, has spent over 22 years escorting over 300,000 guests annually from Denver and Eagle County airports to the front doors of their mountain homes and lodging destinations.

Because guest safety is our primary concern, we have developed an extensive training and maintenance program that is unparalleled in the ground transportation industry. This program includes:

- Intensive driver training emphasizing driving and safety skills in adverse weather conditions
- A team of highly skilled mechanics who adhere to an aggressive maintenance program
- A fleet of over 150 meticulously kept, late model (within 2 years) vehicles

Uniformed drivers exemplify our upscale, dignified approach to ground transportation. Our commitment to providing the highest standards of customer service is demonstrated by our wide range of group and individual transportation options.

Our 10-passenger vans are utilized for our scheduled public shuttle service, and offer large picture windows as well as ample interior luggage storage. When desiring a private, customized travel experience, we offer CME Premier, consisting of our upscale Chevrolet Suburbans or Cadillac Sedans with all of the amenities.

We can help you arrange your group's transportation to and from the airport, as well as around-town transfers. We also offer a 24-hour 800 number for your convenience, as well as a Group Help Desk that is staffed 7 days per week.

As you consider your transportation options, keep in mind that our villages are quaint and pedestrian-oriented and that parking is limited. For these reasons and more, we hope you'll choose Colorado Mountain Express – the relaxing, scenic and enjoyable way to travel the Rocky Mountains.
