Your Out Time From Vail → (to be assigned at check-in)

Porsche Parade 2009 TSD Rally Supplemental General Instructions

I. Directions to the Rally Start in Vail

As stated in the General Instructions, the start of the rally will be in Vail, Colorado, a scenic 38-mile (60.8 km) drive from Keystone. **Allow approximately 50 minutes to reach the starting area, and plan on arriving about 30 minutes prior to your assigned start time.** The instructions to the start are:

1. From the Keystone Conference Center, turn right to go West on US 6
2. After 6.5 miles, go under I-70 and then turn Left to get on I-70 West
3. After 29 miles take Exit 176 (the main Vail exit)
4. Go around the Roundabout; pass under I-70; then go half way around the next Roundabout and exit on Vail Rd.
5. After 0.3 mile go Straight at "Restricted Traffic Ahead" (it's not restricted for us)
6. Immediately Bear Right at Checkpoint Charlie.
7. You are now in the heart of Vail Village, an area open to us by special invitation by the Town of Vail. Please drive very slowly for the next 0.3 mile and enjoy the view.
8. After that 0.3 mile, turn Left at STOP on Vail Valley Dr
9. After 0.1 mile turn Left at "No Stop Required"
10. After 0.5 mile go half way around the Roundabout and exit toward LionsHead
11. After 0.4 mile turn Left toward the LionsHead parking garage
12. Enter the parking area through any of the gates (no ticket required)
13. Proceed to the far end of the structure and turn left (the only way you can go) and go to the last parking bay. Or, in inclement weather we may use the second level. Follow signs as appropriate.
14. Park in a legitimate parking space.

You may pick up your Route Instructions and Scoring Envelope at the check-in table 20 minutes before your scheduled out time. The official time is available nearby. Restrooms are located on the lower level. The breakfast goodies are being sold by and to support the Vail Valley Charitable Fund. Please show your support of their efforts.

II. Changes and Additions to the General Instructions

Change to I. Introduction: In second paragraph, delete reference to “in order of precedence.” There are no conflicts among the cited documents.

Add to IV. Route Instructions: Interstate Highways may be identified in the Route Instructions without regard to the words “Interstate” or “Colorado” on the standard route markers.

Change to VII. Delay Allowances: Please claim delay allowances (if any) in whole minutes plus 0.25 minutes (15 seconds) as will be preprinted on the Delay Allowance slips.

Official Measurement: The rally was measured in a 2002 Toyota 4Runner with a Zeron 880 rally computer driven off the front left wheel. The temperature was in the 50s and the roads were wet in spots due to scattered showers.

Road Construction: Colorado has a short construction season; and while we have coordinated with state and local officials, we cannot guarantee that you will not encounter delays or stretches of broken pavement. If so, please accept our apologies and use the Delay Allowance procedure to account for any time lost.
